Every two years in January, communities across the country conduct comprehensive counts of their homeless population to gain a better understanding of the individuals and families who are currently experiencing homelessness.

The 2015 Santa Cruz County Point-in-Time Count was a community-wide effort conducted on January 22, 2015. In the weeks following the street count, a survey was administered to 344 unsheltered and sheltered homeless individuals in order to profile their experience and characteristics.

**HOMELESS CENSUS ELEVEN-YEAR TREND**

**SHELTERED INCLUDES:**
